Amino Acid-treated Pigments

Black Opal has added lipsticks to its cosmetic offerings for women of color. True Color Lipstick utilizes microencapsulated pigments that are treated with amino acids to reportedly create a structure that improves their adherence to lips. Soybean, sesame and sunflower oils are also included to condition the lips, while aloe extract soothes and hydrates, and vitamins A and E offer antioxidant protection. The lipsticks are offered in nine shades such as Heat Wave and Black Currant.

Ingredients (all shades): *Ricinus Communis* (Castor) Seed Oil, Cetyl Ethylhexanoate, Coco-Caprylate/Caprates, Ozokerite, Ceresin, Silica, PEG-20 Sorbitan Beeswax, Diisostearoyl Trimethylolpropane Siloxy Silicate, Trioctylododecyl Citrate, Triisostearyl Citrate, Polybutene, Microcrystalline Wax, Illipe Butter, Cetyl Lactate, Paraffin, *Butyrospermum Parkii* (Shea Butter) Fruit, Cetyl Dimethicone, Kaolin, Octyldodecanol, *Zea Mays* (Corn) Oil, Retinyl Palmitate, Tocopheryl Acetate, Phospholipids, Cholesterol, Tocopherol, *Aloe Barbadensis* Leaf Extract, Ascorbyl Palmitate, Methylparaben, Propylparaben, Fragrance (*parfum*).

May Contain (+/-): Mica, Titanium Dioxide (CI 77891), Iron Oxides (CI 77491, CI 77492, CI 77499), Carmine (CI 75470, Manganese Violet (CI 77742), Red 6 (CI 15850), Red 7 Lake (CI 15850), Red 21 (CI 45380), Red 27 (CI 45410), Red 28 Lake (CI 45410), Red 30 (CI 73360), Red 33 Lake (CI 17200), Yellow 5 Lake (CI 19140), Yellow 6 Lake (CI 15985), Blue 1 Lake (CI 42090).

Fiber Filler

Série Expert, L'Oréal Professionnel's system to treat the structure of hair from the core to the surface, has been expanded to include a fiber-filling treatment line. Fiberceutic consists of an in-salon hair-filling serum and a restorative sealing treatment, followed with an at-home replenishing mask. Designed for chemically or mechanically damaged hair, the line features the company's Intra-Cylane water-activated molecule that is deposited in hair as evaporation occurs, reportedly penetrating the cortex and entering the fiber through gaps in the hair shaft to reinforce hair's protective layer. The Replenishing Mask for Very Damaged Hair, offered for fine hair and thick hair, was created to accompany the in-salon treatment by maintaining and augmenting the restorative process of damaged hair.

Ingredients: Replenishing Mask for Very Damaged Hair (Fine Hair): Water (*aqua*), Aminopropyl Triethoxysilane, Cetearyl Alcohol, Lactic Acid, Fragrance (*parfum*), Polyquaternium-37, PEG-150/Stearyl Alcohol/SMDI Copolymer, *Paraffinum Liquidum* (Mineral Oil), Hydroxyethylcellulose, Maltodextrin, Butylphenyl Methylpropional, Linalool, Limonene, Hexyl Cinnamal, PPG-1 Trideceth-6, Benzyl Salicylate, Cetrimonium Chloride, Geraniol, Benzyl Alcohol, 2-Oleamido-1,3-Octadecanediol, Benzyl Cinnamate.

Tanner/Exfoliant Duo

Dr. Dennis Gross Skincare has created towelettes to exfoliate and tan the skin while reducing the signs of aging. Alpha Beta Glow Pad contains vitamin D to impart a healthy radiance to skin while increasing the efficacy of other vitamins in the product. Microencapsulated dihydroxyacetone provides time-released color development while soy protein is said to encourage collagen production, ensuring a more natural skin hue. Glycolic and lactic acids are incorporated to reduce visible signs of aging and speed cell renewal, respectively. Willow bark extract, a beta hydroxy acid, is

said to exfoliate and clear pores, and vitamins A, C and E are incorporated to protect the skin from oxidation and prevent collagen break down. Vitamin B is said to reduce pore size and provide wound healing benefits and finally, phospholipids are included to retain moisture in the skin.

Ingredients: Water (*aqua*), Ethoxydiglycol, Dihydroxyacetone, Glycerin, Glycolic Acid, Lactic Acid, Retinyl Palmitate, Ergocalciferol (vitamin D), Tocopheryl Acetate, *Salix Alba* (Willow) Bark Extract, Hydrolyzed Soy Protein, Phospholipids, *Phyllanthus Emblica* Fruit Extract, Erythrose, Phytic Acid, Disodium EDTA, Phenoxyethanol.

Ingredients are listed as provided to Cosmetics & Toiletries magazine by the manufacturers.
